

**Solicitation provisions and contract clauses (MATRIX)**  
**Army Regulation (AR) 215-4**  
**(March 2005)**

P or C = Provision or clause

IBR = Is incorporation by reference authorized?

UCF = Uniform Contract Format Section, when applicable

CI = Commercial Items

R = Required

A = Required, when applicable

O = Optional

n/a = Not applicable

**Notes:**

- (1) Provisions and clauses not identified on the matrix may be used in contracts for commercial items consistent with the procedures and limitations in AR 215-4, Chapter 3.
- (2) Clauses become part of the contract upon award. Provisions, although retained in the contract file, do not become part of the contract upon award.
- (3) Clause/Provision Numbering.
  - Administrative Clause/Provision Number. The Administrative Clause/Provision Number appears below in the first column of the Matrix. In solicitations, orders and contract generated by PRISM/FARA, this number prints after the clause/provision title. For example, OPTION TO EXTEND SERVICES (**BI-021**). In this particular example, the clause is prescribed in Appendix **B** of AR 215-4; included in Section **I**; and numbered **021** for administrative purposes only. All clauses and provisions included in the PRISM/FARA master list are assigned an Administrative Clause/Provision Number. Once assigned, the number remains constant.
  - Contract Clause/Solicitation Provision Number. Unlike the Administrative Clause/Provision Number, which remains constant, PRISM/FARA sequentially numbers clauses/provisions in solicitations, orders and contracts. This number, which precedes the clause/provision title, is referred to as the Contract Clause/Solicitation Provision Number. For example, if the OPTION TO EXTEND SERVICES (BI-021) is the third clause in Section I of the Uniform Contract Format, the title of the clause will print as **I-3**, OPTION TO EXTEND SERVICES (BI-021). If that clause were to become the fifth clause in that section, it would print as **I-5**, OPTION TO EXTEND SERVICES (BI-021). PRISM/FARA will provide an index listing in the contract document for the provisions and clauses for each solicitation and contract developed in PRISM/FARA.
